## I-O-SAFE

EPA REG. NO. 4959-18-10428

### DESCRIPTION:

I-O-SAFE is a low foaming iodophor designed primarily for sanitizing in the beer, beverage, and milk bottling industries as well as the food processing industry. I-O-SAFE can be used for sanitizing at up to 25 ppm (1 ounce per 5 gallons of water) without requiring a rinse with potable water.

### TYPICAL PROPERTIES:

Appearance:	Clear dark reddish brown liquid
Solubility:	Completely soluble in water
Available Iodine	1.6%
Weight per gallon	8.6 lbs. per gallon

### USE DIRECTIONS:

Equipment sanitizing: To preclean equipment, wash with cold or lukewarm water with a solution of 1 ounce I-O-SAFE to 5 gallons water. Rinse with potable water. To sanitize, spray or immerse equipment with a fresh solution of 1 ounce I-O-SAFE to 5 gallons cold or lukewarm water (provides 25ppm titratable iodine). Allow a one minute contact time. When ready to use, drain sanitizing solution. For complete use directions, including tank and vat sanitizing and sanitization of floors, conveyors and walls, see the container label.

### SAFETY INFORMATION:

I-O-SAFE is an acidic product. Avoid contact with skin and eyes. Always use proper protective gear including safety glasses or goggles. Always follow safe handling procedures. Consult the MSDS for further safety information.
